TOWN AND COUNTY MATTERS.

BOARD OF SUPERVISORS.—The following is a synopsis of the proceedings of the Board for Tuesday and Wednesday: Contract let to Baylis & Billingsworth for grading road in East Grafton road district, from Friel's to Larosa's, at 12 1/2 cents per cubic yard of earth in embankment. R. A. Daniel appointed to the office of Road Master in Buckeye road district. Ordered that Gus Fellows be discharged from the Hospital and from further expense to the county. Vinley discharged from the benefits of the Hospital. Report of viewers on road commencing at the county line of Yolo and Solano counties, and on 1/2 section line of section 31, town 8 north, range 3 east, running thence east on said line 2 miles, thence north 1/2 mile, received and placed on file—final hearing of same to be had on the first Monday of August, as provided by law. Report of viewers on road commencing near the Franklin school-house, at NW corner of section 32, town 8 north, range 3 east, running south on section line 5 miles, received and final hearing set for the first Monday in August. Road commencing at SW corner of A. Harley's ranch and running east to Larosa's corner—same as above. Petition received and placed on file for change in public road commencing at the intersection of 5th and Margaret streets, as per map of Welch's addition to the town of Washington. Ordered that Statutes be provided for Justice of the Peace in Putah township. Petition for the creation of new school district from portions of North Putah and Franklin districts, rejected. Change of the eastern line of Buckeye township made so as to include the road leading to the Yolo and Solano bridge. Ordered that the accounts of the ex-district Attorney be examined by the present incumbent, who is required to report on the same on the 6th day of July next. Ordered that notice to contractors be published in the YOLO COUNTY DEMOCRAT for four successive weeks, for proposals for grading public road commencing at Buckeye and running west 3 miles to Wylie's ranch, thence 1/2 mile north. Ordered that the Auditor draw his warrant on the Hospital Fund, for the sum of \$20, in favor of Wm. Roberts, a resident of the town of Washington. Ordered that proposals be received for the construction of bridges on the road running west from Cuckville, and on the road running north from Yolo and Solano bridge. Ordered that the boundary of Spring Valley school district be changed in accordance with petition of D. Fisher, T. J. Dexter and others. Ordered that the consideration of the petition of saloon-keepers for the removal of certain additional amounts assessed to their licenses, be deferred until the 6th day of July next.

ENCOURAGING.—Even the casual observer cannot fail to notice the rapid improvements made in Woodland during the past two years. Rising steadily and surely from the comparative insignificance of a country village to a position more compatible with the wealth of surrounding natural resources, it has already attained a degree of importance never dreamed of by its early settlers, and yet there seems to be no lagging in its progress. On the contrary, the energy and industry of its inhabitants are at this time more than ever apparent, the character and extent of its improvements greater and more permanent than any which have preceded them; and, indeed, there seems to be no obstacle in its road to prosperity to prevent it from ranking with the most important interior towns in the State. The merchants, although in constant receipt of new goods, are seemingly taxed to their utmost ability in supplying the wants of their customers. There is not a shop or manufactory in town that is not overcrowded with work and unable, for want of room and additional help, to fill accumulating orders for work in the various mechanical branches. The several brick-yards, although superintended by men of energy, cannot supply the present and rapidly increasing demand for brick. Every carpenter is employed, and yet there is a demand for more. New buildings are being erected in every part of town. Real estate is rapidly increasing in value, and signs of industry and prosperity are visible on every hand.

DEMOCRACY AT NORTH PUTAH.—The meeting held at Plainfield School House, on Saturday last, for the purpose of organizing a Democratic Club in North Putah precinct, was largely attended. The Club was successfully organized by the adoption of a Constitution and By-Laws and the election of permanent officers. The names of the officers are as follows: President, W. Henson; Vice President, W. D. Wristen; Secretary, G. B. Brown; Treasurer, W. Dressbach. The Democracy of North Putah are enthusiastic in the cause, and will make their work felt and appreciated in the coming campaign. A large number of names have already been enrolled on their club book. Among the members may be found some of the best men in the county, whose energy and earnestness in the good work will insure prosperity and success to the organization. The Club will hold a ratification meeting at Davisville, on Saturday, July 11th, to ratify the nominations of the 4th of July National Democratic Convention.

FOURTH OF JULY.—The committee of arrangements appointed on last Saturday evening to arrange for the celebration of the Fourth of July, held a meeting yesterday for that purpose, and agreed on a programme for the occasion. A grand barbecue is to be given, in which every body is invited to participate. The Declaration of Independence will be read and an oration delivered on the occasion. The committee of arrangements have appointed sub-committees in the various precincts, whose duty it will be to raise funds to defray expenses, and report on Saturday, the 20th inst. The following named persons comprise the committees: Woodland, John M. Kelley, Jason Watkins, W. A. Henry; Buckeye, M. O. Harding, F. G. Russell, Stephen Howard; Cottonwood, John Price, Sam. Fitt, James Viers; Plainfield, Wm. Dressbach, Jas. O'Neil; South Putah, Lewis Drummond, Wm. Montgomery, Wm. Reed; Knight's Landing, J. W. Snowball, W. Henson, John Miller; West Grafton, Geo. Lewis, J. P. Bullock, M. Dale; Cuckville, J. A. Douglas, H. P. Murphy, Henry Yerby; Washington, J. S. Curtis, Wm. M. Green, Jas. S. Stevenson.

TROTTING RACE.—We learn that a trotting race is to come off on the Knight's Landing race course, on Saturday, July 11th, at 2 o'clock P. M. The horses to go in harness, mile heats, best two in three. Race to be conducted according to State rules of racing. Entrance fee \$25. The following entries have already been made: G. W. Buchanan names a Bay Queen; E. Giddings, a g. Abbe; D. W. Edson, a m. Flying Gib; T. Glascock, a g. Lantern. Other entries will be made by consent of parties interested. The track is said to be in fine condition.

PROMPT REPLY.—A miscellaneous article appealing to printers' dollars, halves, quarters and dimes to come home, appeared on the first page of the DEMOCRAT last week, and elicited the following reply from an honest subscriber. The example is worthy of imitation: "Dear Democrat—Having noticed in your last issue a gentle hint to negligent subscribers, I immediately looked over my wardrobe and had the good fortune to find the sum of two dollars that I remembered laying up for the printer some time ago, but which I had forgotten to remit. This unintentional negligence on my part reminds me of the necessity of editors as well as ministers to occasionally stir up the pure in mind of their flocks, in order to keep matters pertaining to the public welfare in a healthy condition. You will find enclosed the amount of my indebtedness, which I beg you to accept, with my best wishes. J. H. H."

NO BRAINS.—A citizen of this town, who is something of a wag, called the other morning at one of the butcher-shops, on Main street, to purchase a few pounds of beef. Not finding the butcher at the shop, and being a little impatient at the delay occasioned by his absence, he instituted a search for him. He finally found the object of his search leaning listlessly against the bar in a neighboring saloon. Approaching the negligent butcher, he asked him if he had any brains. "No," said the butcher; "I have just disposed of all I had." "I thought so," returned the wag, "or you would have been in your shop attending to business."

FESTIVAL.—The festival given by the ladies of the M. E. Church, on Wednesday evening, was arranged and conducted in a manner highly creditable to the managers. The Church was most beautifully decorated for the occasion, and the entertainment, enlivened by vocal and instrumental music, gave entire satisfaction to the many visitors. We learn that a considerable fund was realized, which, as before stated, will be appropriated for the purpose of furnishing the Church with suitable seats.

STRANGERS IN TOWN.—Quite a number of strangers have recently made their appearance on our streets. Some of them have the appearance of laboring men, but seem to be out of employment. This is very strange, considering the great demand for labor and the high wages readily paid for all kinds of work. There must be something wrong. At all events, there is a doubt whether idlers in harvest time are like Caesar's wife.

HARVEST.—The usual activity among farmers on the approach of the harvest season has been observable for several weeks past. Ample preparation has been made for a vigorous campaign in the grain fields of Yolo, which are richly laden with their golden treasures. The work of the harvesters will begin in good earnest next week.

BALL.—The ball to be given at Baker's Hotel, by A. S. House, on the evening of the 3d of July, promises to be a grand affair. Elliott's commodious hall has been engaged for the occasion, and first-class music will add its charms to the festivities.

LOCKHART'S

PATENT SEPARATOR.

Patented, February 1867.

Farmers have long been annoyed by the im-

possibility of separating and cleaning grain as

fast as the cylinder would thresh it. This dif-

ficulty is now entirely overcome.

Lockhart's Patent Separator

having been thoroughly tried in the harvest of

1867, is found to separate and clean the grain as

fast as it can be threshed, without

Choking or Throwing the Grain Over!

These Separators are manufactured only to

order, and can be put into any ordinary thresh-

ing machine, thereby adding at least one third

to its capacity. All machines warranted.

YOLO COUNTY DEMOCRAT.

ADVANTAGES OF DRUNKENNESS.—If you wish to be always thirsty, be a drunkard; for the officer and more you drink, the officer and more thirsty you will be.

If you wish to prevent your friends from raising you in the world, be a drunkard; and that will defeat all their efforts.

If you would effectually counteract your own attempts to do well, be a drunkard; and you will not be disappointed.

If you are determined to be poor, be a drunkard; and you will be ragged and penniless to your heart's content.

If you wish to starve your family, be a drunkard; and then you will consume the means of their support.

If you would be imposed upon by knaves, be a drunkard; for that will make their task easy.

If you would get rid of your money without knowing how, be a drunkard; and it will vanish insensibly.

If you are determined to expel all comfort from your house, be a drunkard; and you will do it effectually.

If you would be hated by your family and friends, be a drunkard; and you will soon be more than disagreeable.

If you would be a pest to society, be a drunkard; and you will be avoided as an infection.

If you would smash windows, break the peace, get your bones broken, tumble under horses and cars, and be locked up in a station-house, be a drunkard; and it will be strange if you do not succeed.

If you wish all your prospects in life to be clouded, be a drunkard; and they will soon be dark enough.

If you would destroy your body, be a drunkard; as drunkenness is the mother of disease.

A MIDDLE-AGED FARMER and his wife were enjoying a Winter evening cozy together, when the conversation turned upon religious matters, as described in the Bible, which the man had opened before him. "Wife," said the farmer, "I've been thinking what happy society Solomon must have had in his day, with so many wives, etc., as is here represented." "Indeed," said the wife, somewhat miffed, "you had better think of something else, then. A pretty Solomon you would make, truly; you can't take proper care of your wife. What a figure you would cut, then, with a dozen wives, and all of them as spunky as I am!" The farmer took his hat and went to the stable to feed the cattle for the night.

A WARNING TO HARD DRINKERS.—A man traveling in the case in Georgia was suddenly struck dumb. A local editor says: "We heard him attempting to talk soon after he got on the train, and in a few minutes he could not articulate a word. He was in possession of his other faculties, but his lips were literally sealed. His distress was very touching, and he wrote replies to questions addressed him by the passengers, and tried to hear up under the terrible visitation. He said that he had been on a spree. He hoped it was only a species of delirium and would wear off with rest and sleep. He said he had once been partially deprived of speech before, for a short time, in Virginia."

CLOSE OF LIFE.—When the summer of youth is slowly wasting away into the night-fall of age, and the shadows of the past year grow deeper and deeper, and life wears to its close, it is pleasant to look back through the vista of time upon the sorrows and satisfactions of our former years. If we have a home to shelter us, and friends gather together around our fireside, then the rough places of our wayfaring will have been worn and smoothed away in the twilight of life, while the sunny spots we have passed through will grow brighter and more beautiful.

In a certain family a pair of twins made their appearance, and were shown to their little sister of four years. It happened that whenever a rather prolific cat of the household had kittens, the prettiest were saved, and the rest drowned. When the twins were shown the child by their happy father, she looked at them earnestly, and, at length, putting her little finger tip on the cheek of one of them, looked up and said, with the seriousness possible: "Papa, I think we'll save this one!"

SOMEONE lived before his time and perished in conflict and error. One of his prayers, which is left us, beautifully illustrates the character of the man: "Father Jupiter, give us all good, whether we ask it or not, and keep us from all evil, though we may not pray thee so to do. Bless all our good actions, and reward them with happiness and success."

A DESCENDANT OF NABAL having put a crown-piece into "the plate" in an Edinburgh church, one Sunday morning, by mistake, instead of a penny, asked to have it back, but was refused. In once, in forever. "Well, well," said he, "I'll get credit for it in heaven." "No, no," said Jeems, the door keeper, "you'll get credit only for the penny you meant to give."

LET cynics say what they will, man is not vindictive. Here for years we have been subjected to the daily torture of wearing the hat, and we have not even preserved the name of the wretch who invented it.

FORNEY said that to urge on the impeachment business in his columns was "a stern duty." If the proper duty were done to him, it would be a stern duty.

THE National Capitol is a Nazareth out of which no good can at present come, but into which we trust that a great deal will go after the next elections.

THERE is a young lady in Camden so refined in her language that she never uses the word "blackguard," but substitutes "African sentinel."

THE Washington letter-writers, in describing Ben. Butler, call him "full-faced." He certainly has a great deal of "cheek."
